Nice Timing Game. i Loved it since Farm Frenzy 2 Pizza Party. Nice game. Good to waste your time with him. :wonziu:. For casual game, this is really fun. Well I don't know what happened to the Farm Frenzy games over the years. They were great to start out with, fun cartoony graphics, fast-paced play and challenging levels. Then they got really hard but still enjoyable (All the FF3 variants). Then came the latest ones, FF:Hurricane Season and their ilk - really a blast to play and not too hard but still a bit of a challenge.

With FF4 I don't know what the heck happened! The graphics are awful, the animals barely even move around, the machines are not upgradable, the cat meows incessantly and the game play is SLOOOOOOOW. The story is disjointed and the main character looks nothing like the original character. It's like the developers lost any ability to program the basic things they had been doing before. Are they trying to make the animals more realistic? Well they look unformed or something. I sure wish they had left well enough alone. Oh well, I am still going to play it and I guess I'll recommend it if you can get it really cheap (about \$2 or so), but it's sad that the franchise has gone so far down hill.. Worth the money, fun and at times challenging.. An alright casual game. I've played them since I was young and found them a little more challenging than other games of their kind. A good time waster, but certainly not anything super special.. This is not a Farm Frenzy game. It may be called Farm Frenzy but it isn't.

A few highlights;

-Controls feel sluggish.

-Game seems to have been run through Google Translate from whatever language it was written to English, into Russian, and then back into English producing such lovely hints such as this: 'The combo multiplier has several marks and a certain sum next to each mark that you get once you reach this or that mark. Let's try to reach the first mark!' This is some seriously advanced English.

-Adorable protag Scarlett has been replaced by scary uncanny valley dwellers.

-Animals apparently don't die if you don't give them enough food, instead they go to sleep. Bears no longer fling animals out of the pen, instead they scare them into not producing.

I'm incredibly salty that I'm outside the window for getting a refund on this train wreck. Complete waste of time and money.. This is not a Farm Frenzy game. It may be called Farm Frenzy but it isn't.

I'm incredibly salty that I'm outside the window for getting a refund on this train wreck. Complete waste of time and money.. i love playing farm frenzy 4. I'm about 6 missions in. There's nothing casual about the gameplay. Each mission is timed (1 to 2 minutes), giving you little time to look around. Tasks just involves clicking in a series of areas to produce a certain final product. Bonus items also requires that you look around the scene and find it. Obstacles (like moles) try to impede your

progress. The only way to get rid of them is, you guessed it, click on it.

I was looking for a sandbox mode but can't find the option. I originally hoped this game would be some sort of cartoony sim farm, but all missions are timed leaving you little time to actually enjoy the game.

Wouldn't recommend this game.

This game crashes before I ever get to any gameplay. Every time. I had to sit in the main menu for 3 additional minutes just so that I could post this review, since steam requires 5 minutes of play time before you can post a review. Mac OS X version.. Really good game to waste half an hour. When I started playing I didn't understand why playing for 1 hour non stop was an achievement. I do now. It's good fun but only for short sessions.. I really enjoyed this game. It's perfect for playing semi-mindlessly while watching TV. I played through the entire game and re-played some levels to get as many gold stars as possible. The grammar could definitely use some work, but overall it was a decent management game.. Way worse than any other Farm Frenzy game. I don't really understand the regress of the series. If u want to play Farm Frenzy, get one of the 3's (Like Ice Age or American Pie) but don't buy this, even on biggest sales.. I have never played any of the prior Farm Frenzy games except the demos. FF4 is a surprisingly addictive game. I am used to buying and playing high-budget AAA games and playing a "casual" game like FF4 is a different experience for me.

I was introduced to "time-management" games recently and I am enjoying this genre because it requires a bit of fast-paced thinking, not just clicking. FF4 can get a little hectic and it takes a while to get through the entire campaign. It is very difficult to collect all the Steam Achievements due to how many rounds there are in the entire campaign.

As many reviewers have noted, the broken English in the game used is pretty bad. It is a bit distracting if you are trying to immerse yourself in this game. How hard can it be to find one American editor to clean up the broken English?

The sound effects are good and functional. The cartoony graphics works for this game. Again, my biggest criticism is the poor English being used. I am not a grammar Nazi, I simply object to what appears to be laziness on the developer's part to find someone who knows conversational English to edit the text.

Aside from that quibble, I have no regrets getting FF4. As usual, I wait for a 66%-75% sale before I buy as to minimize the risk of paying money for a bad game. Yes, I know Steam does refunds but with all the games I have and available today, I am simply not into paying full retail price for most games.

FF4 is a cute but challenging time-management/strategy game. Don't let the cutesy graphics fool you. It does require some strategy to get through to the very end. I highly recommend FF4.

UPDATE: I still prefer FF4. It is still the best version of the FF. I tried the sequels after FF4 and I really disliked the style and the mini-games. I was greatly disappointed in them which reinforces my love of FF4.. I have never played any of the prior Farm Frenzy games except the demos. FF4 is a surprisingly addictive game. It would be even better if it wont crash all the time :':c

If not for the crushes I would of recomended it. Love it. Cute and entertaining without violence.. It takes 34 hours and i got 85% achievement unlocked...

,sure i mean 34 hours spent to clear this game. (all gold medal lol)

If you think to earn all achievement from this childish -looking game, think again. Some of them are not easy as you think.

Super-click to boost production time is gone, if you play all previous Farm Frenzy series, you should know what i mean but there is a timer that exactly show when your product is done instead so you can manage your production line better.

Graphic is quite good for a first time-full 3D farm frenzy. camera angle can be adjusted but i prefer top view most,

Sound and music is okay too, dunno what to complain about it. haha

Luckily, i bought it with a discounted price but that's not too expensive that much to buy at the full price, come on... it's worth to try :). Audience:]===
